Dear Secretary

I refer to the submission of the Executive Council of Australian Jewry and the Organisation of Rabbis of Australasia forwarded to you under cover of my letter dated 14 May 2010.

For the avoidance of doubt, I wish to emphasise that the Jewish community prefers that the present self regulated system should be maintained without legislative, regulatory or any other Government oversight.

As the submission makes clear, the self regulation system operating within the Australian Jewish community has worked well and there is no pressing need for that system to change.

Yours faithfully

**Robert M Goot AM SC
President**
